User's Guide to Subject Index

1. Legislative studies: These are entered only under *Legislative Affairs: Committee Studies*.
2. Non-legislative studies: These are entered in a subject section, not under the agency(s) performing the study.
3. Departmental entries: Only bills directly affecting the organization and management of a department appear under the department/office entry. Administrative rule legislation may also appear under the departmental entry. All programs and other responsibilities are listed under the subject.
4. *Parishes/Municipalities* sections: Most bills dealing with parishes and municipalities will be entered under a specific subject in the index and *not* under *Parishes* or *Municipalities*. However, bills which have no specific subject area elsewhere in the index will have an entry under the parish/municipality involved. Bills which deal with the powers of parish/municipal governing authorities (mayor, police jury, etc.) will appear under the specific subheading under *Parishes* or *Municipalities*, either under the subject itself or under the name of the parish or municipality.
5. *Retirement, Unemployment Compensation, Worker's Compensation*: these sections are "exclusive" within each section and their entries are seldom reflected elsewhere in the index.
